

Gr3 Unit 7 Session 18

First: I predict I'll scoop _____ **cubes** in the spoon.

Next: I scooped _____ **cubes** with spoonful _____. (1,2,3)

Last: I color in _____ **squares** on the **strip**.

Partner B: How could we find the **average**?

I counted _____, _____ and _____.

(cubes in spoonful 1)

(cubes in spoonful 2)

(cubes in spoonful 3)

Next I added the cubes. That's _____ cubes **total**.

Then I made 3 stacks of _____ cubes each.

When the stacks are **equal**, that's the **average**.

The **average** is _____.
